- Human Capital Analyst at Qrius(formerly, The Indian Economist) – Dec 2017-June 2018
- Marketing Analyst at Qrius (formerly, The Indian Economist) – Dec 2017-Jan 2018

Projects

- Voice based Home Automation :
Switching and Intensity control of LED and Incandescent lights using voice based commands through Amazon AI Alexa over Bluetooth connectivity was developed using Python and Language C. Also, a smart plug was designed for switching control of electrical appliances through voice commands over Bluetooth which was a plug and play style design for regular household sockets.
- Smart Blind Stick with GPS tracking :
A portable blind stick with several features for practical use was designed and developed using language C. The system was able to handle four issues that may be faced by the blind people namely obstacle detection, puddle detector, automatic glow stick, SOS alert with GPS+GSM interface.
